THE HEALTHXCHANGE GROUP:

Healthxchange is an award-winning, leading medical aesthetics distributor in the United Kingdom and Ireland.

Founded in 2000 by a clinician for clinicians, Healthxchange is regarded as one of the most trusted suppliers to medical professionals who work with injectables, cutting-edge devices, medical grade skincare and cosmeceutical treatments.

For over two decades our expert team has been led by medical research, strict compliance and detailed studies, enabling Healthxchange to provide the latest skin driven technology with a 360 solution for all clinical requirements.

This considered approach has earned Healthxchange recognition as 'Distributor of The Year' at the Aesthetics Awards for three consecutive years.

ULTRALUX PRO:

12 IN-DEMAND TREATMENTS IN 1 DEVICE

UltraLUX PRO is the ultimate all-in-one device that delivers unprecedented power and scope for clinics wanting to maximise their service potential. Combining 12 of the most popular LUX Series applications into a streamlined design, this easily manoeuvrable treatment powerhouse expands your treatment menu while maximising competitive edge, booking potential, cash flow and daily productivity levels.

KEY FEATURES

- 2,000 watts of power with 12+ hours of continuous working time
- Intuitive graphic user interface with 12 inch full colour touch screen
- 6 IPL applications, SHR Hair Reduction, Ultrasound Body Contouring, RF plus Sonophoresis
- Pre-programmed settings based on Fitzpatrick Type, plus manual mode options
- Tattoo Removal and Carbon Facials
- Interchangeable magnetic safety filter system plus 15x35mm, 15x50mm and 12x40mm spot size options
- Integrated skin contact cooling from -7°C for more comfortable treatments

INTUITIVE

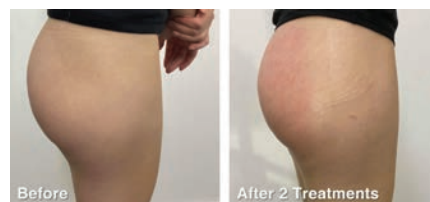

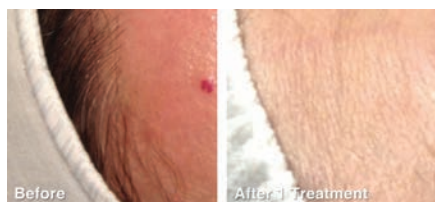

The easy-to-use, intuitive interface on the 12 inch touch screen comes pre-programmed with adjustable settings based upon client Fitzpatrick skin type and treatment area for faster, more accurate and safer setting selection.

ADAPTABLE

Interchangeable filters that deliver 6 IPL applications with a single handpiece. Simple and Professional modes offer flexibility for operators of all skill levels.

EFFECTIVE

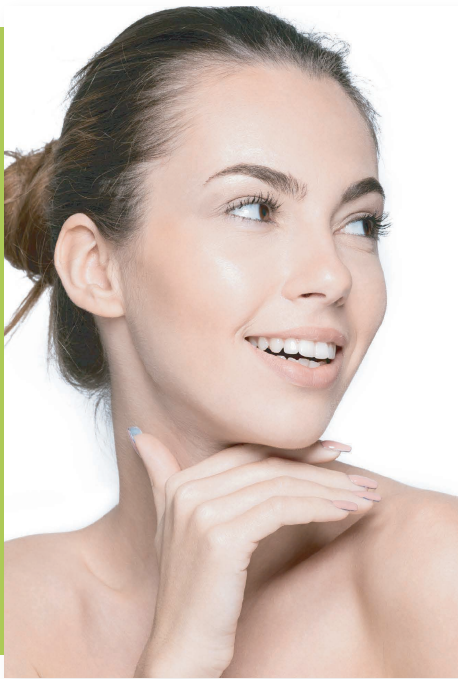

Maximise your existing client base and appeal to new demographics with effective treatment results that target everything from unwanted facial hair to vascular flushing, post pregnancy lax skin to acne management and so much more.

INNOVATIVE, REVENUE-GENERATING TREATMENTS WITH SUPERIOR CLINICAL RESULTS

- SHR (Super Hair Reduction) – Pain free, ultra-fast hair reduction
- Dual-Mode IPL Hair Reduction – For lighter pigmented hair
- IPL Hair Reduction - For smaller or difficult to treat areas not suitable for SHR
- IPL Photo Rejuvenation - Visibly reduce the appearance of pores, fine lines and wrinkles
- IPL Pigmentation Correction – Reduce skin blemishes, sunspots and uneven skin tone
- IPL Vascular Therapy - Reduce redness conditions, vascular lesions and facial flushing
- IPL Acne Management – Treat breakouts and reduce acne causing bacteria
- RF Skin Tightening – Tighten, smooth and tone lax skin on the face and body
- Ultrasound Body Contouring – Sculpt and tone to reduce stubborn areas
- Sonophoresis Skin Care Infusion – Superior product penetration for accelerated results
- Professional Tattoo Removal (UltraLUX PRO) – Effective, tattoo removal results on a broad range of ink types and colours
- Carbon Facials (UltraLUX PRO) - Advanced skin rejuvenation commonly known as the “China Doll “ or “Hollywood Facial”

IPL

Skin Rejuvenation

Reduce the appearance of fine lines and wrinkles, smooth out irregularities and enhance your skin's overall luminosity for a revitalised, youthful glow with IPL photo rejuvenation.

IPL skin rejuvenation treatments are:

Fast
Non-invasive
Highly effective

IPL

Hair Reduction

With LUX Series IPL, you can remove unwanted hair from the face or body quickly, comfortably and effectively.

- Neck and facial hair
- Underarms
- Legs and thighs
- Bikini/Brazilian
- Chest and back
- Arms and hands
- Shoulders
- Buttocks
- Feet and toes
- Upper lip and chin

SHR

IPL Super Hair Reduction

You can target unwanted hair using lower energy and higher frequency, allowing for safe, effective and comfortable treatments.

- Neck and facial hair
- Underarms
- Legs and thighs
- Bikini/Brazilian
- Chest and back
- Arms and hands
- Shoulders
- Buttocks
- Feet and toes
- Upper lip and chin

Tattoo Removal

Premium platform for professional tattoo removal

Real patient before and afters:

Carbon Facials

Carbon facials are an advanced skin rejuvenation treatment, also known as the “China Doll Facial” or “Hollywood Facial”.

Carbon Facials leave your skin with the appearance of looking smoother, clearer, and rejuvenated. Treatments work to refine a wide range of skin concerns that can increase the appearance of visible ageing.

Ultrasound Body Contouring

Sculpt your figure for a tightened and toned silhouette.

Ultrasound Body Contouring is an advanced method to contour, slim and tone the body, without the need for invasive procedures and surgery.

Proven body contouring results that are:

- Non-surgical
- Highly effective
- Comfortable
- No downtime

5 WAVELENGTHS OF MEDICAL-GRADE LED

MediLUX delivers unprecedented service power and treatment scope, allowing clinicians to push their LED service potential higher than ever before.

The highpowered medical-grade MediLUX delivers blue, green, yellow, red and near-infrared LED wavelengths to target a wide range of common client skin concerns.

An intuitive user interface allows clinicians to tailor treatments with either single strategic wavelengths or craft their own layered services in manual mode. 20-minute pre-programmed services designed for optimum results can also be chosen from, including Acne Management, Skin Tone Correction, Redness Reduction, Skin Rejuvenation, PDT Therapy and Dermal Repair.

BLUE LIGHT 420NM

105MW/CM2

Reduces sebaceous activity, kills acne causing bacteria and prevents breakouts.

GREEN LIGHT 520NM

95MW/CM2

Anti-inflammatory action that reduces swelling and strengthens capillaries.

YELLOW LIGHT 590NM

30MW/CM2

Increases skin hydration, thickness and delivers redness reduction benefits.

RED LIGHT 633NM

115MW/CM2

Encourages circulation and increases collagen production for age management results.

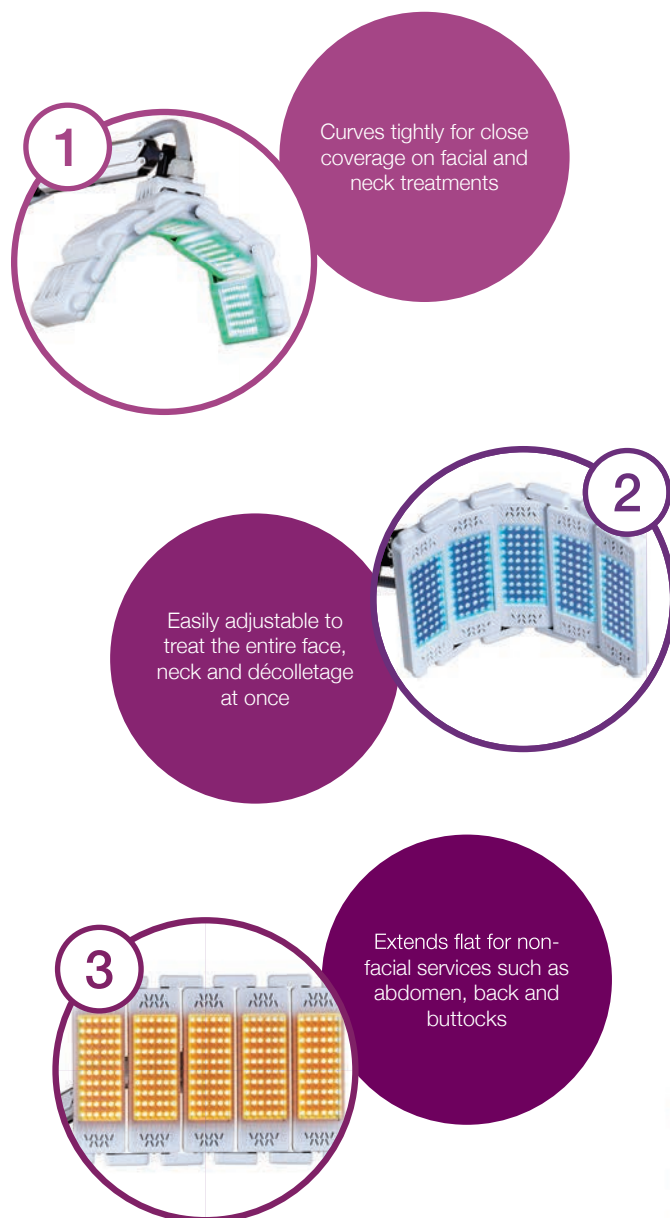

NIR LIGHT 830NM

125MW/CM2

Boosts Adenosine Triphosphate for deep cellular regeneration and wound healing.

3 ADJUSTABLE PANEL OPTIONS

FAST

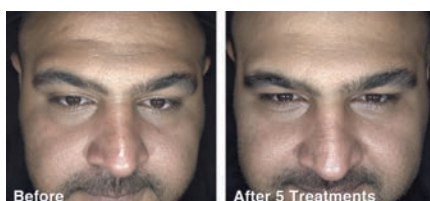

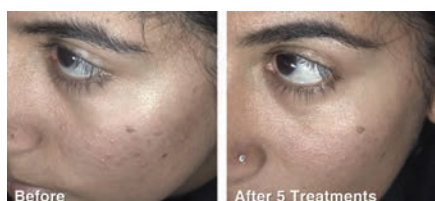

Touch-and-go services are easily selected from a 10.4 inch colour touchscreen to address common client skin concerns. PDT settings auto calculate, while manual mode provides customised service options.

DYNAMIC

An extra long, adjustable treatment arm delivers maximum coverage of the face, neck and décolleté. An adjustable panel can be used curved or straight for non-facial areas such as the back and stomach.

EFFECTIVE

MediLUX delivers the industry's highest power outputs for results driven services. Combining multiple layered wavelengths from the 5 light options available further enhances client treatment results.

The Global Beauty Group

Education HUB

A BLENDED LEARNING AESTHETIC EDUCATION PATHWAY LIKE NO OTHER

Access to the innovative online learning platform The Global Beauty Group Education HUB is included with your device to set you up for success with your new technology. Enjoy comprehensive training in the theory and practice of performing treatments and inter-active learning modules.
